

# How to Steer Clear of Drunken Drivers

Driving under the influence of alcohol is a common cause of auto accidents. If you can spot a drunken driver and stay out of his or her way, you may be able to avoid an accident. Watch out for drivers who:

- Drive too fast or too slow.
- Make jerky starts or stop abruptly.
- Overshoot stop signs.
- Ignore traffic signals.
- Follow cars too closely.
- Pass other cars too quickly or too slowly.
- Change lanes frequently.
- Drive without their lights on after sundown.
- Drive with their windows rolled down in cold or wet weather.
- Are obviously partying and having a good time with their passengers when they should be paying attention to the road.
